

## **BUSINESS FOR SALE**

**Due to declining health issues, I am having to retire early, so the Texas Academy of Animal Control Officers is up for sale**

TAACO began operations in June 2005, beginning with the first and only Full training program for those choosing to enter the Animal Care & Control field as a career. **The "TFA" course** is 130 hours (4 weeks- 4 sessions a year) long and affords 4 State approved certification and 14 certificates of completion in all pertinent areas of the animal care and control field. Whether desiring to work in a shelter/clinical setting or in out in the field, the TFA Grad is fully trained and ready to go to work. TAACO has a 95% hire rate of its grads. Since inception TAACO has graduated over 450 TFA students and 5000 in-service students that were already working. TAACO is the only facility of its type in the nation. We now offer 23 state approved continuing education courses from 4-24 hours. All these courses are offered remotely upon request, all over Texas and the, and US.

We are hoping to find someone that will have the same desire and dedication to carry on our goal and efforts to provide the most professional and up-to-date training for anyone who is currently working in or desiring to enter the AC&C field. There are latterly hundreds of job opportunities all over for trained ACOs/ACTs.

Our current dedicated, experienced and knowledgeable staff is willing stay on at least through a 4-6 month transitions/training period and a couple desire to stay employed. I assure you, whomever chooses to take over will be pleased to have them.

This is a package deal as is, including the real-estate/physical property and the actual business operation.

**Anyone interested in purchasing the business, please contact me (Alan Spence - 979.716.0496) to set up a time to take a tour and visit about the possibilities.**

TAACO was recently valued at \$325,000. But any reasonable offer will be considered. Our goal is to make the transaction final by 15 September as to prepare for October TFA course.
